

SOFT SOLID XL

47-12296-103-0PM

39-47 EN ISO 20347: O2 SRC FO

Durable boots with upper leather that keeps its shape and is water-repellent. The boot has a reflector on the side. Warm fleece lining and a felt insole with aluminium layer keep feet warm. Laces to ensure perfect fit. A reversed zipper is more durable than a traditional one and keeps dirt away from the zipper and footwear. Wide XL fit. Flexible FlexStep® sole that is anti-slip even in sub-zero temperatures.

Resistance to oil and many chemicals

Sievi's sole resists oil and many chemicals. The oil resistance of Sievi footwear meets the requirements of the EN ISO 20345:2011 standard.

Antistatic

Footwear designed with antistatic features, discharges the body's static electricity up to tolerances of 100 kΩ - 1000 MΩ.

Water repellent

The upper material used in this footwear is water repellent. Its water resistance meets the requirements of the EN ISO 20345:2011 standard.

Shock-absorbing heel

The shock-absorbing heel area protects the feet and the skeletal system against stress. The product meets the requirements of EN ISO 20345:2011 and EN ISO 20347:2012: the shock absorption capacity of the footwear is at least 20 J. The cushioning effect is guaranteed by the use of FlexStep® sole material in all Sievi footwear.

Sole material PU

The footwear sole is made of FlexStep® material. This single density microporous structured polyurethane sole offers very high slip-resistance and flexibility providing excellent shock absorption.

Warm lining

Footwear displaying this symbol can be worn in cold environments. The material keeping the cold out is either lamb's wool or artificial fur. Additionally, some styles are lined with Thinsulate™ fiber.

XL-last

Sievi XL ranges. These extra wide styles offer more space and comfort for the wearer. For footwear with XL width fittings see "XL" in the product name.

Zipper

Models marked with this symbol have a useful zipper.

DUAL insole

DUAL insole The Sievi DUAL Comfort insole has shock absorbing cushions made of PORON® material which adds comfort to your feet and back.

ESD

Through its sole construction, ESD footwear provides a safe and controlled method of discharging the body's static electricity. The tolerances for the resistance of Sievi footwear are stricter (100 kΩ-35 MΩ) than for ordinary antistatic footwear (IEC 61340-5-1).

FlexStep® – Grip and flexibility to work

The microporous FlexStep® sole material, developed by Sievi has been re-designed.

The re-designed sole material maintains its excellent shock absorbing properties and

flexibility in freezing conditions more efficient. The footwear sole therefore remains softer, even in heavy

freezing conditions, and maintains excellent friction on slippery surfaces. The construction of the

FlexStep® flexible sole eliminates stress and shocks to the feet and spine, helping to prevent foot and back

pains and thereby improving work efficiency. The FlexStep® flexible sole is featured on all Sievi footwear.
