Sole material	Double density PU/TPU
Upper material	Microfiber
Last	43

The Viper Roller High+ S3 is the latest addition to the Viper product family with metal-free penetration-resistant fabric and new Boa®M4 roller mechanism. Upper material is breathable, water-resistant microfibre. 3D-dry® lining is extra airy and breathable. Memory foam ankle protection provides added support and shapes itself to the user's foot as it warms.
